

AHCA/AHIMA ICD-10 Training for PDPM — *CODER*

Course Syllabus

<p>Module 1</p>	<p>ICD-10-CM Guidelines and Clinical Documentation Improvement (CDI) This module walks the participant through the general overarching ICD-10-CM coding guidelines, including coding conventions and rules. It then covers important aspects of clinical documentation improvement in general, as well as considerations for the skilled nursing facility. The overarching theme for this module is the importance of how the Patient Drive Payment Model (PDPM) is affected by high-quality documentation and application of appropriate ICD-10-CM codes.</p>																												
<p>Module 2</p>	<p>ICD-10-CM, CDI and PDPM for Chapters 1–3 of the ICD-10-CM Code Book This module covers the chapter specific guidelines in ICD-10-CM for the following chapters: Chapter 1–Certain Infectious and Parasitic Diseases Chapter 2–Neoplasms Chapter 3–Disease of the Blood and Blood-Forming Disorders Involving the Immune Mechanism</p> <p>CDI specific conditions addressed include:</p> <table border="0"> <tr> <td>Fungi</td> <td>Overlapping lesion</td> </tr> <tr> <td>Parasites</td> <td>Complications</td> </tr> <tr> <td>Bacteria</td> <td>Current vs. History of Malignancy</td> </tr> <tr> <td>Viruses</td> <td>Neoplasms of Blood</td> </tr> <tr> <td>Drug-Resistant Organisms</td> <td>Anemia</td> </tr> <tr> <td>HIV/AIDS</td> <td>- Acute/chronic blood loss</td> </tr> <tr> <td>Tuberculosis</td> <td>- In or due to neoplasms</td> </tr> <tr> <td>Pneumonia</td> <td>- In chronic disease</td> </tr> <tr> <td>Urinary Tract Infections</td> <td>- Nutritional</td> </tr> <tr> <td>Sepsis</td> <td>Sickle-cell disorders</td> </tr> <tr> <td>Hepatitis</td> <td>Pancytopenia</td> </tr> <tr> <td>Primary Neoplasm</td> <td>Thrombocytopenia</td> </tr> <tr> <td>Metastasis</td> <td>Neutropenia</td> </tr> <tr> <td>Benign vs. Malignant</td> <td></td> </tr> </table> <p>PDPM addresses the Clinical Categories that conditions found in the above chapters fall into, as well as those conditions that have a bearing on the Non-Therapeutic Ancillary (NTA) component. MDS sections that may be pertinent to these conditions are also covered.</p>	Fungi	Overlapping lesion	Parasites	Complications	Bacteria	Current vs. History of Malignancy	Viruses	Neoplasms of Blood	Drug-Resistant Organisms	Anemia	HIV/AIDS	- Acute/chronic blood loss	Tuberculosis	- In or due to neoplasms	Pneumonia	- In chronic disease	Urinary Tract Infections	- Nutritional	Sepsis	Sickle-cell disorders	Hepatitis	Pancytopenia	Primary Neoplasm	Thrombocytopenia	Metastasis	Neutropenia	Benign vs. Malignant	
Fungi	Overlapping lesion																												
Parasites	Complications																												
Bacteria	Current vs. History of Malignancy																												
Viruses	Neoplasms of Blood																												
Drug-Resistant Organisms	Anemia																												
HIV/AIDS	- Acute/chronic blood loss																												
Tuberculosis	- In or due to neoplasms																												
Pneumonia	- In chronic disease																												
Urinary Tract Infections	- Nutritional																												
Sepsis	Sickle-cell disorders																												
Hepatitis	Pancytopenia																												
Primary Neoplasm	Thrombocytopenia																												
Metastasis	Neutropenia																												
Benign vs. Malignant																													
<p>Module 3</p>	<p>ICD-10-CM, CDI and PDPM for Chapters 4–6 of the ICD-10-CM Code Book This module covers the chapter specific guidelines in ICD-10-CM for the following chapters: Chapter 4–Endocrine, Nutritional, and Metabolic Disease Chapter 5–Mental, Behavioral, and Neurodevelopmental Disorders Chapter 6–Disease of the Nervous System</p>																												

	<p>CDI-specific conditions addressed include:</p> <table border="0"> <tr> <td>Diabetes</td> <td>Psychoactive Substances</td> </tr> <tr> <td>Obesity</td> <td>Common Mental Disorders</td> </tr> <tr> <td>Abnormal Body Mass Index</td> <td>Psychological Pain Disorder</td> </tr> <tr> <td>Malnutrition</td> <td>Pain</td> </tr> <tr> <td>Electrolyte Imbalances</td> <td>Dementia</td> </tr> <tr> <td>- Hypokalemia</td> <td>Altered Mental Status</td> </tr> <tr> <td>- Hyperkalemia</td> <td>Cognitive Deficit</td> </tr> <tr> <td>- Hyponatremia</td> <td>Coma</td> </tr> <tr> <td>- Hypernatremia</td> <td>Cerebral Palsy</td> </tr> <tr> <td>Hypothyroidism</td> <td>Paralytic Conditions</td> </tr> <tr> <td>Hyperthyroidism</td> <td>Epilepsy and Seizures</td> </tr> </table> <p>PDPM addresses the Clinical Categories that conditions found in the above chapters fall into, as well as those conditions that have a bearing on the Non-Therapeutic Ancillary (NTA) component. MDS sections that may be pertinent to these conditions are also covered.</p>	Diabetes	Psychoactive Substances	Obesity	Common Mental Disorders	Abnormal Body Mass Index	Psychological Pain Disorder	Malnutrition	Pain	Electrolyte Imbalances	Dementia	- Hypokalemia	Altered Mental Status	- Hyperkalemia	Cognitive Deficit	- Hyponatremia	Coma	- Hypernatremia	Cerebral Palsy	Hypothyroidism	Paralytic Conditions	Hyperthyroidism	Epilepsy and Seizures
Diabetes	Psychoactive Substances																						
Obesity	Common Mental Disorders																						
Abnormal Body Mass Index	Psychological Pain Disorder																						
Malnutrition	Pain																						
Electrolyte Imbalances	Dementia																						
- Hypokalemia	Altered Mental Status																						
- Hyperkalemia	Cognitive Deficit																						
- Hyponatremia	Coma																						
- Hypernatremia	Cerebral Palsy																						
Hypothyroidism	Paralytic Conditions																						
Hyperthyroidism	Epilepsy and Seizures																						
<p>Module 4</p>	<p>ICD-10-CM, CDI and PDPM for Chapters 7–10 of the ICD-10-CM Code Book</p> <p>This module covers the chapter-specific guidelines in ICD-10-CM for the following chapters:</p> <p>Chapter 7–Diseases of the Eye and Adnexa Chapter 8–Diseases of the Ear and Mastoid Process Chapter 9–Diseases of the Circulatory System Chapter 10–Diseases of the Respiratory System</p> <p>CDI-specific conditions addressed include:</p> <table border="0"> <tr> <td>Cataracts</td> <td>Heart Failure</td> </tr> <tr> <td>Macular Degeneration</td> <td>Acute Ischemic Stroke</td> </tr> <tr> <td>Blindness</td> <td>Intracranial Hemorrhage</td> </tr> <tr> <td>Hearing Loss</td> <td>Transient Ischemic Attack</td> </tr> <tr> <td>- Conductive</td> <td>Deep Vein Thrombosis</td> </tr> <tr> <td>- Sensorineural</td> <td>Arrhythmia and Conduction Disorders</td> </tr> <tr> <td>- Mixed</td> <td>Respiratory Failure</td> </tr> <tr> <td>Hypertension</td> <td>COPD</td> </tr> <tr> <td>Atherosclerosis and Angina</td> <td>Asthma</td> </tr> <tr> <td>Myocardial Infarctions</td> <td></td> </tr> </table> <p>PDPM addresses the Clinical Categories that conditions found in the above chapters fall into, as well as those conditions that have a bearing on the Non-Therapeutic Ancillary (NTA) component. MDS sections that may be pertinent to these conditions are also covered.</p>	Cataracts	Heart Failure	Macular Degeneration	Acute Ischemic Stroke	Blindness	Intracranial Hemorrhage	Hearing Loss	Transient Ischemic Attack	- Conductive	Deep Vein Thrombosis	- Sensorineural	Arrhythmia and Conduction Disorders	- Mixed	Respiratory Failure	Hypertension	COPD	Atherosclerosis and Angina	Asthma	Myocardial Infarctions			
Cataracts	Heart Failure																						
Macular Degeneration	Acute Ischemic Stroke																						
Blindness	Intracranial Hemorrhage																						
Hearing Loss	Transient Ischemic Attack																						
- Conductive	Deep Vein Thrombosis																						
- Sensorineural	Arrhythmia and Conduction Disorders																						
- Mixed	Respiratory Failure																						
Hypertension	COPD																						
Atherosclerosis and Angina	Asthma																						
Myocardial Infarctions																							
<p>Module 5</p>	<p>ICD-10-CM, CDI and PDPM for Chapters 11–12, 14, and 17–17 of the ICD-10-CM Code Book</p> <p>This module covers the chapter-specific guidelines in ICD-10-CM for the following chapters:</p> <p>Chapter 11–Diseases of the Digestive System Chapter 12–Diseases of the Skin and Subcutaneous Tissue</p>																						

	<p>Chapter 14–Diseases of the Genitourinary System Chapter 17–Congenital Malformations, Deformations and Chromosomal Abnormalities Chapter 18–Symptoms, Signs, and Abnormal Clinical and Laboratory Findings</p> <p>CDI specific conditions addressed include:</p> <table border="0"> <tr> <td>GERD</td> <td>Stasis Ulcers</td> </tr> <tr> <td>Dysphagia</td> <td>Wounds</td> </tr> <tr> <td>Peptic Ulcers</td> <td>Acute Renal Failure</td> </tr> <tr> <td>Inflammatory Bowel Disease</td> <td>Chronic Renal Failure</td> </tr> <tr> <td>- Ulcerative Colitis</td> <td>Urinary Obstruction</td> </tr> <tr> <td>- Crohn’s Disease</td> <td>Benign Prostatic Hyperplasia</td> </tr> <tr> <td>Cirrhosis</td> <td>Down Syndrome</td> </tr> <tr> <td>Pressure Ulcers</td> <td>Fetal Alcohol Syndrome</td> </tr> <tr> <td>Stasis Dermatitis</td> <td></td> </tr> </table> <p>PDPM addresses the Clinical Categories that conditions found in the above chapters fall into, as well as those conditions that have a bearing on the Non-Therapeutic Ancillary (NTA) component. MDS sections that may be pertinent to these conditions are also covered.</p>	GERD	Stasis Ulcers	Dysphagia	Wounds	Peptic Ulcers	Acute Renal Failure	Inflammatory Bowel Disease	Chronic Renal Failure	- Ulcerative Colitis	Urinary Obstruction	- Crohn’s Disease	Benign Prostatic Hyperplasia	Cirrhosis	Down Syndrome	Pressure Ulcers	Fetal Alcohol Syndrome	Stasis Dermatitis	
GERD	Stasis Ulcers																		
Dysphagia	Wounds																		
Peptic Ulcers	Acute Renal Failure																		
Inflammatory Bowel Disease	Chronic Renal Failure																		
- Ulcerative Colitis	Urinary Obstruction																		
- Crohn’s Disease	Benign Prostatic Hyperplasia																		
Cirrhosis	Down Syndrome																		
Pressure Ulcers	Fetal Alcohol Syndrome																		
Stasis Dermatitis																			
<p>Module 6</p>	<p>ICD-10-CM, CDI and PDPM for Chapters 13, 19, and 21 of the ICD-10-CM Code Book</p> <p>This module covers the chapter specific guidelines in ICD-10-CM for the following chapters: Chapter 13–Diseases of the Musculoskeletal System and Connective Tissue Chapter 19–Injury, Poisoning and Certain Other Consequences of External Causes Chapter 21–Factors Influencing Health Status and Contact with Health Services</p> <p>CDI-specific conditions addressed include:</p> <table border="0"> <tr> <td>Pathological Fractures</td> <td>Traumatic Brain Injury</td> </tr> <tr> <td>Traumatic Fractures</td> <td>Burns</td> </tr> <tr> <td>Osteoporosis</td> <td>Inhalation Injuries</td> </tr> </table> <p>PDPM addresses the Clinical Categories that conditions found in the above chapters fall into, as well as those conditions that have a bearing on the Non-Therapeutic Ancillary (NTA) component. MDS sections that may be pertinent to these conditions are also covered.</p>	Pathological Fractures	Traumatic Brain Injury	Traumatic Fractures	Burns	Osteoporosis	Inhalation Injuries												
Pathological Fractures	Traumatic Brain Injury																		
Traumatic Fractures	Burns																		
Osteoporosis	Inhalation Injuries																		
<p>Module 7</p>	<p>Putting It All Together</p> <p>This module specifically addresses the PDPM payment components. A case study is presented and the participant is guided through classifying the resident into clinical categories, determining the case-mix groups and converting them to the case-mix indexes, and identifying the reimbursement utilizing the PDPM information.</p>
